Good Morning Carson,

In my attempt to get you version three of the Operational plan, I have been advised that there is some work to be done to ensure it is complete and ready for a more public consumption. Our entire team is meeting downtown at 0700 this morning to ensure we have all the pieces we require fed into it. A number of them were waiting for approval at various stages.

While I apologize for the delay, it was decided that we wanted to give you the most up to date and relevant document for you all to make your assessment. I believe the Chief had hoped you would be able to join us at HQ at noon for the plan delivery and any discussion. You will then have access to the full Exec team. You should receive an invitation with the details for the meeting this morning from the Chief's Executive Assistant.

It is not ideal and you have my most sincere apologies on this.

Trish

Good evening Trish,

Please do a reply all to send your operational plans.

Thank you.
Valérie
